

Dorset Mud Trail Schools Consent Form

Dorset Mud Trail is of physical nature with undulating ground with natural obstacles in addition to the obstacles constructed by Dorset Waterpark Ltd.

Dorset Mud Trail is a physically demanding activity and accidental injury is possible. Possible injuries include cuts, grazes, sprains and bone fractures, but more severe injuries can happen.

The nature of the activities may result in damage to clothing. It is very important that all participants wear footwear at all times on the trail. Long sleeves and long trousers are recommended.

If we do not think individual children, or the whole group, are capable of an obstacle, we will not allow them to access the obstacle in question.

It's very important that we know of any pre-existing health issues which may impact on your children's participation such as Back/Neck Injuries, Diabetes, Epilepsy, Respiratory, Cardiovascular, Psychological, past dislocation injuries or other health considerations affecting a participant's performance. You must inform a member of staff before your session if any of your children have any pre-existing health issues.

If appropriate, inhalers and epipens must be with your children on their session.

For safety reasons, the maximum weight for an individual on the course is 115 kg (18 stone).

Number of children taking part			
Date of Session		Time of Session	
Relevant Medical Information (Continue overleaf if necessary)			
School Name			
<i>I am acting in loco parentis for all of these children with the knowledge and permission of their legal parent or guardian. Their parent/guardian is aware and has consented to their child coming to Dorset Mud Trail and are aware of the above information.</i>
